

sinclair first degraded the quality of its local news by using the "News Central" format, and this station airs some of the most vile programs such as Jerry Springer. Now it will reach a new low by airing a blatantly anti-Kerry political piece just before the election.

If this is not balanced by a piece from the other side, it will be an unfair use of the public airwaves.

You should not allow this propaganda to be aired.

Thank you,

Jan Falcona
